

PLT TECHNOLOGY, INC.

MANUFACTURES OF QUALITY HIGH POWER SEMICONDUCTOR LASERS

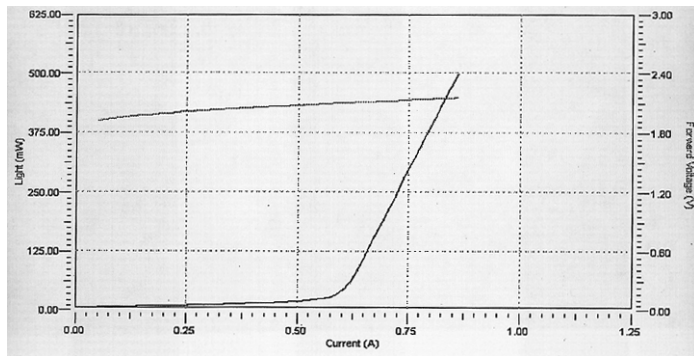

WORLD RECORD TECHNOLOGY FROM PLT INTRODUCING 635nm Laser which performs at 45°C while Generating 450mW Power

Laser Package Options:

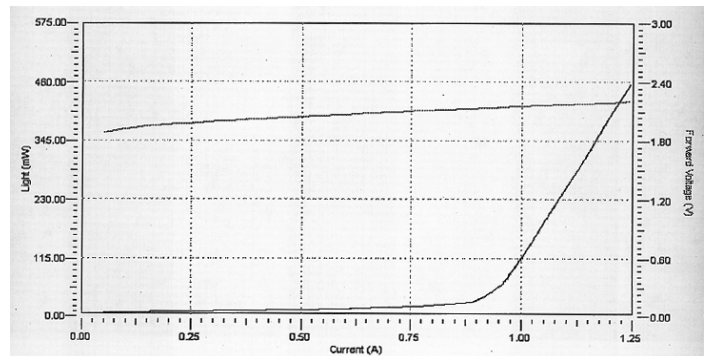

- C-mount
- 9mm
- TO-3
- Q-mount

All package configurations can be FAC lensed.

18.7°

Specification: (635nm \pm 3nm, 150um stripe, 600mW cw power, Max Volts=2.3, Ith= 600mA)

44.3°

Specification: (641nm \pm 3nm, 150um stripe, 450mW cw power, Max Volts=2.3, Ith= 960mA)

This laser can be used for PDT, R&D and industry.

*For more information about the 635 nm laser visit
